

Longfield Academy is delighted to announce that they have been successful with their reaccreditation of Investor in Careers.

This will be the third time that they have been successful in achieving the award and they will have the award for a further 3 years.

Longfield Academy is committed to offering their students an excellent education while preparing the students for a life beyond the Academy, which may be university, a Higher Apprenticeship or employment.

The Assessor was exceptionally complimentary of the robust careers education programme that is on offer at Longfield. The students interviewed by the assessor all confirmed that they knew how to access help if required.

Throughout the report, it is very apparent that Careers Education at Longfield Academy is valued by the whole team. This includes Senior Leadership, the Governing Body and the Leigh Academies Trust and the students.
