LONGFIELD ACADEMY

Accessibility Plan

1. This Accessibility Plan has been drawn up to reflect the current position at Longfield Academy. It reflects the views of the students, parents, staff and governors of the Academy. The building has been designed to meet and supersede all current access and legislated requirements. Longfield is a highly inclusive academy working together with all the stakeholders.
2. We are committed to providing a fully accessible environment which values and includes all students, staff, parents/carers and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.
3. Longfield Academy plans, over time, to increase the accessibility of provision for all students, staff and visitors to the Academy. The Accessibility Plan will contain relevant actions to:
 - Improve access to the physical environment of the Academy, adding specialist facilities as necessary. This covers improvements to the physical environment of the Academy and physical aids to access education.
 - Increase access to the curriculum for students with a disability, expanding the curriculum as necessary to ensure that students with and without a disability are equally prepared for life. This covers teaching and learning and the wider curriculum of the Academy such as participation in extra-curricular clubs and activities, leisure and cultural activities or visits. It also covers the provision of specialist aids and equipment, which may assist these students in accessing the curriculum.
 - Improve the delivery of written information to students, staff parents and visitors with disabilities. Examples might include hand-outs, timetables, textbooks and information about the Academy and relevant Academy events. The information should be made available in various preferred formats within a reasonable time frame.
4. Action Plans relating to these key aspects of accessibility have been prepared, these plans will be reviewed and adjusted on an annual basis.
5. We acknowledge that there is a need for ongoing raising awareness of disability and access, this will include training for staff, student, parent and governors in the matter of disability discrimination act and the need to inform attitudes on this matter.

6. The Accessibility Plan should be read in conjunction with other policies including
 - Curriculum
 - Teaching and Learning
 - Equal Opportunities and Diversity
 - Equality Objectives
 - Staff Development
 - Health and Safety (including off-site safety)
 - Special Educational Needs
 - Academy Prospectus and its ethos and vision
7. Curriculum policies will address issues of Equality and Diversity. All governors' committees will have regard to matters relating to access.
8. The Academy's complaints procedure cover the Accessibility Plan.
9. The Plan will be monitored by governors through the Finance and General Purposes committee of the governing body.
10. The Plan will be monitored by Ofsted as part of their inspection cycle.
