

# LEARN BY TEACHING

**Trying to make someone else understand a concept really helps you remember it**

MOST TEACHERS WILL TELL  
YOU THAT TEACHING  
SOMETHING TRICKY IS WHAT  
CEMENTED IT IN THEIR  
MIND

# USE YOUR FRIENDS - BUT YOU MUST STAY FOCUSED

- Pick a subject and split it into different topic areas - make each one as small as you can
- Allocate each person a topic (or a number of topics) and set a deadline
- Decide how you will explain it... are you going to use a presentation? A model? Diagrams? A combination? Could you give them a mini test or a quiz?
- Set a time when you are going to deliver to each other and stick to it - don't get distracted by other things!

NOT EVERYONE WILL  
HAVE THE WILLPOWER  
TO PRODUCTIVELY  
STUDY WITH  
FRIENDS...

# WHO ELSE COULD YOU TEACH?

- Your parents... find a time when they are either occupied and can't get away from you (maybe when they are cooking or ironing or doing some DIY) and teach them - see if they know it well enough to repeat it back to you
- A younger sibling - it won't do them any harm to get a grip on these concepts early
- Even teaching the poster of a celebrity will have the desired effect!
