

THE WEIRD AND THE WONDERFUL

**Not only does it make revision more fun but you will
remember it!**

SMELL

Find distinctive smells and use them to associate with different topics.

E.G:

Maths - coffee

Science - mint

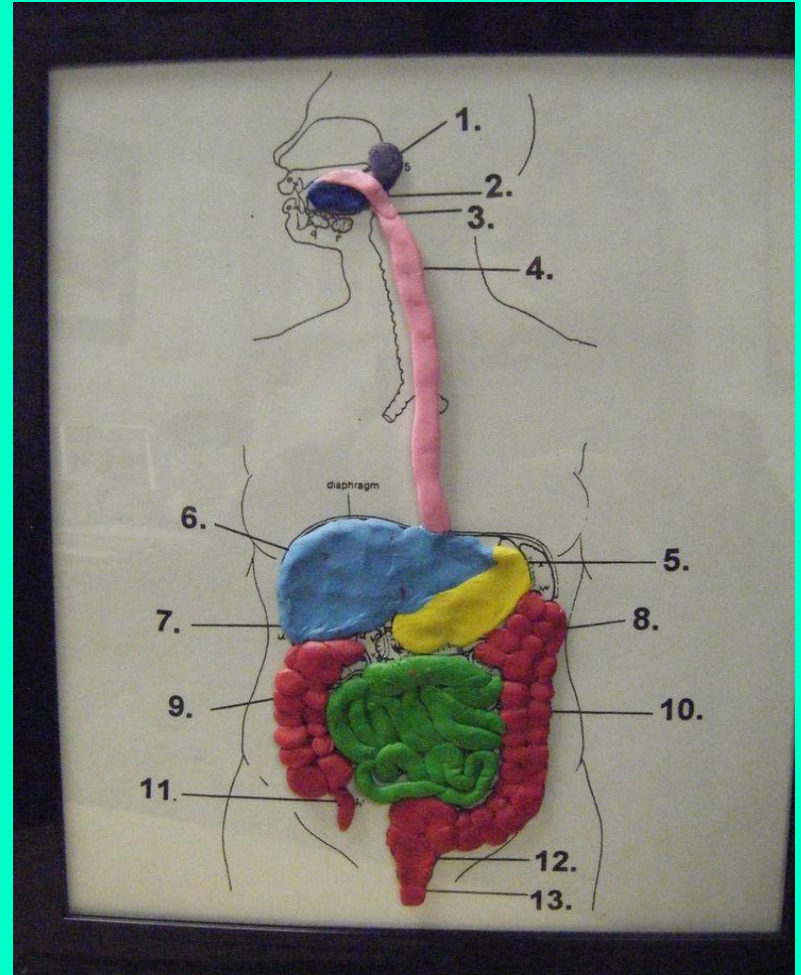

OBJECTS

Hold different objects when you are revising different topics and then when you are in the exam think of that object to help you recall the information

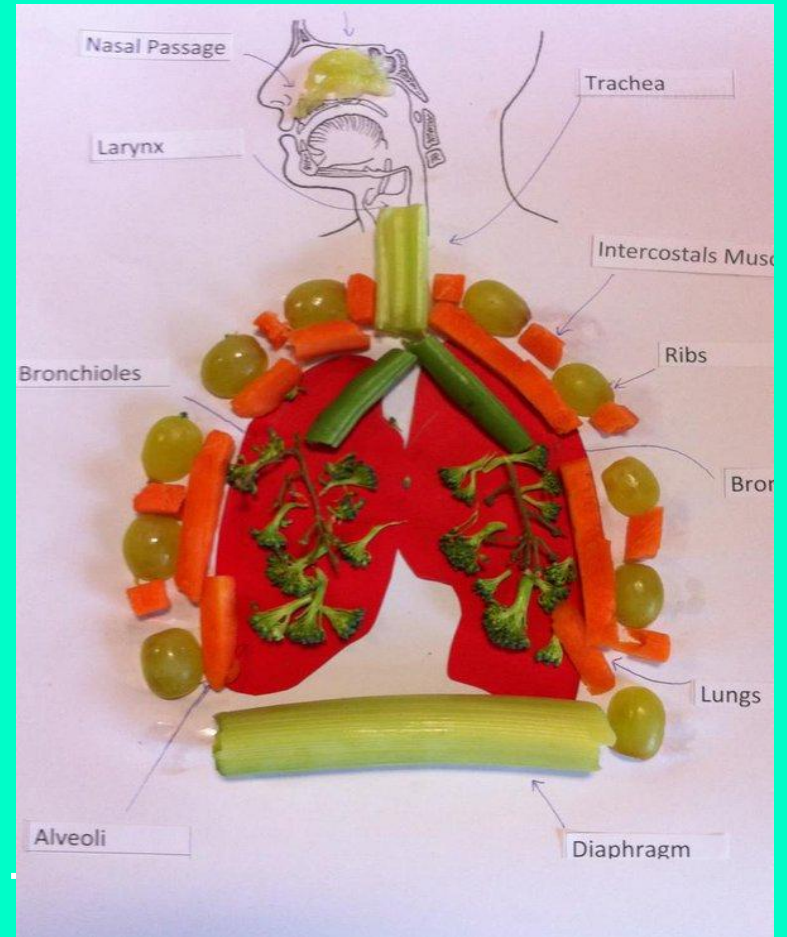

PLASTICINE

Get rid of the writing!
Use plasticine to model what
you are revising (this could
be anatomy, poetry or a
period of history)
You could then label it and
photograph it for later
reference

ANYTHING YOU HAVE AROUND...

Use ANYTHING you have at home to help you revise...
The odder it seems the more you will remember it

WHAT IDEAS COULD YOU
COME UP WITH THAT YOU
THINK WOULD HELP YOU
REMEMBER A TOPIC?
